Reviews

It is an awesome book that we have possibly go through. It is actually writter in straightforward words and phrases and not confusing. It is extremely difficult to leave it before concluding, once you begin to read the book.

IDEOLOGY IN AMERICA (PAPERBACK)

CAMBRIDGE UNIVERSITY PRESS, United Kingdom, 2013. Paperback. Condition: New. New. Language: English . Brand New Book. Public opinion in the United States contains a paradox. The American public is symbolically conservative: it cherishes the symbols of conservatism and is more likely to identify as conservative than as liberal. Yet at the same time, it is operationally liberal, wanting government to do and spend more to solve a variety of social problems. This book focuses on understanding this contradiction. It argues that both facets of public opinion are real and lasting, not artifacts of the survey context or isolated to particular points in time. By exploring the ideological attitudes of the American public as a whole, and the seemingly conflicted choices of individual citizens, it explains the foundations of this paradox. The keys to understanding this large-scale contradiction, and to thinking about its consequences, are found in Americans attitudes with respect to religion and culture and in the frames in which elite actors describe policy issues.
