Through the process of cloning and genetic engineering the fallen angels have returned. The Nephilim are real. Science has resurrected them and now the world must deal with them and the other collateral creatures created. Susan Stanton-Mikels was raped and impregnated. Her children abused and misused by the Cloning Conditioning Association. No one has paid a greater price for research than Susan. But, she has the least opportunity for a peaceful and prosperous life. James Denton has the answers to why these things happened to Susan. He is partly responsible and so are we.

This book can be well worth a go through, and a lot better than other. It is written in simple words and phrases and not confusing. It's been printed in an exceptionally simple way in fact it is merely right after I finished reading through this pdf by which basically changed me, modified the way I think.
