Forgotten Books, United States, 2016. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Lexington: Hand-Book of Its Points of Interest, Historical and Picturesque Farming is the principal occupation of the inhabitants, and the chief productions are hay, milk, fruit and vegetables. Many business men of Boston have residences here, and during the summer and autumn Lexington is a favorite resort. The location is peculiarly favorable to health, and invalids find the bracing air and pure water very beneficial. Being nearly 250 feet higher than sea level, it forms the water-shed between the Charles River on the south, the Concord on the north, and the Mystic on the east. There are no stagnant ponds within its borders, and brooks run from it in almost every direction. The surface is greatly diversified, abounding in hills of considerable height which afford extensive views over the adjoining towns. From many points the Wachusett and Monadnock Mountains are plainly seen in the western horizon. Containing many large, well-tilled farms, pleasant dwellings with fine old trees around them, and extensive tracts of woodland, the drives over its sixty miles of roads are picturesque and delightful.
