Createspace Independent Publishing Platform, 2015. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.1943. World War II. The U.S. government drafted him out of his life of normalcy and complacency into the life of a United States Marine Corps officer. After intensive training, he would serve during some of the bloodiest assaults of the war. The violent rigors of combat would teach him the rules of long-term survival amid the most lethal fighting in human history. Those who failed to learn these lessons would not return home to their families. During the bloody throes of combat, all is fair and the only rules that apply are those that promote survival. In the face of evil, what is the nature of right and wrong? An insightful short story.
